

## Podiatry service receives 750th call from Whitegate Health Centre

Blackpool Teaching Hospitals provides a podiatry clinic at the Whitegate Health Centre, run by NHS Blackpool.

In between clinics, the podiatry call centre is available for enquiries and appointments from the Infopoint help-point installed at Whitegate Health Centre.

This month, the podiatry call centre received its 750th call from the Whitegate Infopoint help-point.

*"It's the next best thing to having a clinic or member of staff there full-time"*

Ben Clarke, Infopoint Project Manager, commented "providing access to important services which aren't necessarily always available on site is one of the main benefits of an Infopoint solution."

Other services available on the Infopoint help-point at the Whitegate Health Centre are:

Taxis

Traveline

NHS Direct

PALS

Blackpool Smoking Service

The Infopoint help-point at the Whitegate Health Centre is provided free to the Trust and calls to all services featured on the unit are paid for by Infopoint
